

Specialty Cast-In Aluminum and Bronze Heaters Used in Plastics Processing Equipment

Plastics Processing Equipment utilizes numerous types of specially designed Cast-In Aluminum and/or Bronze Heaters. In addition to the typical and commonly used cylindrical cast-in heaters, complex geometric shapes are used extensively as well.

The following two pages provide you with a small overview of our manufacturing capabilities by illustrating some popular cast-in heater shapes and how they are used. Special designs can be made to your specifications. Consult Tempco with your requirements.

Internal Ring Heater

Platen for Plastic Welding Equipment

Flat Platen Heater

"U" Shaped Heater

Semicircular Shaped Heater

Segmented Ring Heater

Internal Ring Heater

Laminating Radial Edge Heater

"L" Shape with Vent Clearance Hole
